POPULISTS IN THE EAST END.

Judge Kerr and Captain Cooks Were the Speakers.

The Populists held forth at Johnson's Hall, on Twenty-eighth street, last night, Honorable W. J. Kerr, of Colorado, and Captain Edmund R. Cocke, candidate for Governor of Virginia, did the speaking.

Judge Kerr spoke for an hour and made a vindictive verbal crusade against the Democrats. The People's party of Virginia, represented the old Jeffersonian principles of the people, said the speaker.

He stuck to the Democratic party as long as it represented the interest of the people, but left them when they allied themselves with the money powers against the rights and welfare of the nasses. The present car; aign was not an issue be-tween Colonel O'Ferrall and Captain Cocke, not an issue between President Cleveland and Mr. Weaver, but it was an issue between money powers and the cause of the great

depression in the country, and the contest was to decide whether a few money kings should trample over the hearts of the great body of the people. The speaker then discussed the financial situation, and attempted to show that the two other great political powers were responsible for it. The People's party was made up largely of the hardworking, honest people who were being working, honest people who were being is prived of their earnings by the bankers, money lenders, capitalists and broken-down political backs, clamoring for office. down political facts, the left the Democratic party, said he, because he believed the People's party was doing more good, and he would leave the latter organization to-morrow, if he found another which could do more good to poor suffering humaitay.

He criticized the Democratic dministration, went for Grover Cleve and, Colonel O'Ferrall and other prominent Democrats as far as decency permit, and declared that Judas Iscariot was greatly preferable in his estimation to Mr. Voorhees and others in the United The speaker then took up the silver

question, and elaborated upon the im-portance of a free coinage of that metal He advocated the same principle of free coinage of sliver and wanted plenty of it. His speech tabounded in verbal thrades against the Democrats, and was vindictive, harsh and full of envy. He was followed by Captain Cocke, who spoke more than half an hour, and confined himself chiefly to a discussion of the discussion of the control of the co the silver question from a Third party standpoint, Captain Cocke was milder in his criticism of the Democrats than was Judge Kerr. He favored the Populist principles because, said he, they were the only means of relief for the depress-

TWO BOLD REFORTS BY A NEGRO TO ASSAULT WHITE WOMEN.

Both Attempts Were Made Near the Same Place and Time-The Villain

On M street near Twenty-fifth last Saturday night a bold attempt at criminal asseult took place, the would-be villain being a negro, and the young lady upon whom the attempt was made being about sixteen years old. Her home is in New York, and she is visiting friends on Twenty-sixth street. Shortly after 9 o'clock the young lady, in company with two girl friends, left the house for a walk. While passing an alley, which runs back of G. W. Bradley's grocery store, a negro emerged from the darkness, and, seizing his victim by the throat, threw her on the side-walk. Screams from her companions soon brought several gentlemen to the rescue in time to see the villain escape through an alley. At the appointed time Professor Mason began his lecture. It lasted for over an hour, and during that time his audience were treated to a splendid fecture. He spoke in a clear, easy tone, which was listinctly audible to everyone. Professor Mason is recognized as the leading autherity in this country upon the sciences of ethnology and anthropology. The sum and substance of the Professor's lecture bears with great force upon the leading political questions of the day, and especially upon the tariff question. As a science, the Professor said, it was the only true solution to political and social conomy, a reality that sooner or later must demonstrate the fact that we have to turn at last to nature and ask for the to turn at last to nature and ask for the answer and solution to our social and political problems. In a strong argument he showed how the government has turned to his science, and asked for aid and advice upon many of her most puzzling questions. He further demonstrated the fact that the fate of nations past and those to come can, to a large extent, be foretold by the aid of the great science—to which he has devoted his life.
